PART NO: POV MW00 • CHASSIS CODE: 992

The Öhlins Advanced Trackday kit for Porsche, features the Öhlins well known TTX-technology. The lightweight TTX shock absorbers will completely transform your car into a beast.

These products are widely used in the top motorsport series, winners in GT-racing and top touringcar racing series. Equipped with our TTX-technology the shock absorber keeps the pressure in balance, so all you need to focus on is the track ahead. See you at the track!

With more adjustability options, you are able to fine-tune the suspension setting for each individual track as well as the tires you chose to use. Öhlins professional test drivers have tested all settings to find the optimum performance so you can focus on the driving.
